In 2013, the City Council set a goal to enhance Community Park & Recreational Assets. Building on this goal, in October 2017, the City contracted with Gates & Associates to assist with a Central Park Master Plan Update (Plan). The focus of the Plan has been to create a coherent vision that will integrate and guide Central Park's future improvements by establishing a set of principles, community supported priorities and appropriate professional design criteria. In 2018, community input was received by the City via a community meeting and an online survey. The latest draft Plan is ready for review and the community is invited to provide input at Community Meeting #2.
