Santa Clara

AGENDA REPORT

City of Santa Clara, California

Agenda Item #

4A-3

DATE: January 15, 2008
TO: City Manager/Executive Director for Council/Redevelopment Agency Information
FROM: Executive Assistant to the City Manager
SUBJECT: Correspondence Received Regarding the Proposed Football Stadium as of January 15, 2008 (3:10 p.m.)

For the period of January 11 through 15, 2008 (3:10 p.m.), the Mayor and Council Offices, City Manager's Office and other City departments and municipal addresses have received 268 additional emails and letters from organizations in regards to the proposal for a 49ers football stadium. The correspondence is placed in the Council Offices for review.

A handwritten signature in blue ink, appearing to read "J. Kadam".

Jashma Kadam
Senior Staff Aide

Approved:

A handwritten signature in blue ink, appearing to read "Carol McCarthy".
Jennifer Sparacino
City Manager

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Vince Aro

January 10, 2008

Dear Mayor Mahan and City Council Members:

The heart of any team is commitment. It's that way for sports and for those of us in the non-profit world: success depends on the commitment of those around you.

As non-profit organizations serving the people of the South Bay, we've been fortunate to have the San Francisco 49ers as long-time partners in our efforts. They are, in a word, committed. Whether it's supporting education at the 49ers Academy, supporting after-school programs with City Year Silicon Valley, "adopting" families for the holidays, exposing children to art classes at the Triton Museum, hosting a holiday bike build for underprivileged children, or promoting school safety at Briarwood Elementary, the 49ers are the kind of active, supportive neighbors we need.

While the team is generous with its checkbook, their commitment is about much more than just financial support. The players, coaches, front office staff and owners are all committed to the community as well. That kind of personal connection to the kids and families we serve provides an incredible boost for our collective work.

Given this level of community involvement in the 20 years since they located their headquarters in Santa Clara, we are excited about the possibilities of continuing to partner with the 49ers in the community once they play their games at a stadium in Santa Clara as well. A new stadium has the potential to foster a new era in the team's support for Santa Clara and South Bay non-profit organizations.

Vernon Hills
Director of Development
CityTeam Ministries

Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
JEMEL M JONES

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Robert Jones

Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Deborah Lemberger

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Bill Lonero

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;

Millions of dollars in annual economic impact;

Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Stephen Martin

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Dennis Hoagland

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Johnny Ng

So, permit me to ask again, as both the City Attorney and Ms. McLeod have declined to answer, why is it ok for an employee for the City of Sunnyvale (with the city of Sunnyvale on record with a report opposing the 49er stadium that Jamie McLeod's campaign advisors, Au Nguyen and Mary Emerson conveniently got a copy of---from I wonder who?) to vote on a matter that her employer claims will materially affect that employer?? Internal Affairs, Mercury News As for Palo Alto, there was a little controversy, as always. Councilman Larry Klein was tapped for the mayor's post, but because his wife is a professor at Stanford's School of Education, Klein will have to recuse himself from voting on anything related to P.A.'s lumbering academic neighbor. That means the vice mayor would have to lead those discussions - and that meant Councilman John Barton, an unpaid lecturer at Stanford, saw his bid to be vice mayor shot down. Instead, the No. 2 post went to Councilman Peter Drekmeier. Barton tried to argue that five separate attorneys have agreed his 11 years of unpaid teaching at Stanford represent no conflict of interest. But that didn't fly with the majority.

In reading some comments on the Mercury News Blog, I note that now people's past actions and court papers are being cited by people associated with Karen Hardy and Byron Fleck. So, if people who support the stadium are being asked to explain past actions outside city issues, doesn't that apply to people opposed to the stadium as well?

Hello,

I will not be able to attend in person the next meeting of the City Council on January 15, 2008. However, as a city resident and a registered voter, I would like to ask you to vote NO on the proposal to initiate the negotiations with the 49-ers. Santa Clara does not need and cannot afford the 49-er stadium.

Regards.

Mike,

Hmmmm.... Let me see... "you're \$51 million short, but we recommend you move forward with the project". Sound's like a subprime mortgage broker making the pitch. Granted Sparcino is no mortgage broker, but what else would you expect her to say (look at who hired her, she needs her job). I think it's totally irresponsible for the City of Santa Clara to invest a dime in the 49er stadium deal. I mean, Arnold is closing 48 State Parks due to the deficits caused by the subprime meltdown! Does this mean Santa Clara will need to close all their city parks and all their libraries to afford this bad deal? C'mon... do the math! This looks like another subprime meltdown warming up.

I have been attending about half of the Santa Clara City Council meetings over the last four months.

Many people have spoken about the project. I've kept track of what they have said. As I'm sure you have noticed about half spoke in favor and about half spoke again the project.

I also kept track of if they lived in the City of Santa Clara. For each meeting there were a few I couldn't say for sure; however, of those who live in the City of Santa Clara the ratio was two to one against the Stadium.

Please vote NO! We don't need the Stadium. It would be a bad idea. And the majority of people in the City of Santa Clara, the people you represent, are against the stadium. Many of those who are for it change their minds when they find out how much it costs.

Again, please vote NO.

Thank you.

**Issues and Concerns for The Proposed
Santa Clara 49'er Stadium**

**Brian P. Lowery
Santa Clara Resident**

I. Introduction

Information to be read in this document is based largely on the recently constructed Arizona Cardinal Stadium located in Glendale, Arizona¹ and on information gleaned from an internet article entitled, the “*NFL Fan Value Experience*” produced by Sports Illustrated.² From that article, the future success of an NFL franchise stadium in our city depends in large part, upon whether or not a set of derived time-valued principals known as the “NFL Fan Value Experience” can be successfully implemented. Consultants hired by both the City and the Chamber of Commerce have already attempted to show that better than average economic benefits can be realized from the placement of an NFL football stadium. However, what are left out in these economic reports are the precise methods that should be implemented by the City before these economic benefits, both direct and indirect, can be realized. In my opinion, these precise methods should be guided by the principles discussed in the Sports Illustrated article. Most specifically, the overall ‘fan success’ of our stadium will depend more on the ‘environment’ that is placed around the stadium, rather than the two teams competing on the gridiron on a given day only.

A possible method for the private financing of the remaining portion of the stadium costs will be given as well. It is my opinion that this method of financing could have the potential of resolving any future public issues concerning the both the short term costs as well as any future costs, with no direct or indirect burden on City finances..

¹ <http://www.azcardinals.com/stadium/>

² <http://sportsillustrated.cnn.com/2007/football/nfl/11/01/fvi.intro/index.html?bcnn=yes>

The criteria we believe the City needs to seriously start putting before the residents in order to make their case are as follows:

1. The presumed cost for game day tickets.
2. Restaurant and Commercial areas that will fuel the fan's passion for the area.
3. Easy access to the stadium
4. A proper environment for fan tailgating
5. Team performance both on and off the field.
6. A stadium that makes both fan and player feel like they are actual tenants
7. A neighboring environment that makes fans and residents want to visit before and after the game

II. Addressing the 'NFL Fan Value Experience' criteria

1. The cost and availability of game day tickets.

To date, no one from the City has bothered to discuss this issue. It is important to let residents know just exactly what the price of the ticket may be. It is my opinion that the 49'er ownership will keep the price of tickets at a level that is competitive. However, given the presumed costs of building a new stadium, many individual 49'er fans that I know of, fear that tickets will be priced at levels beyond their reach, let alone say, a family of four wishing to attend a game. A possible price range given from the 49'ers would go a long way towards dispelling these fears.

2. Restaurant and Commercial areas that will fuel the fan's passion for the area.

This is one area where I believe the City of Santa Clara has not made its case very well. In just about every Council meeting I have attended, I have never seen potential City concepts of the area put up on bulletin boards showing how an NFL franchise will rejuvenate the area, in spite of its contention that the Convention Center is in the general vicinity. In fact, I believe that most residents are not even

aware of the area that the City is even considering for the stadium. The location of the restaurants and stores should be included in the discussions precisely because that makes the stadium more than just about an NFL franchise. Yes, the potential placement for the stadium has not yet been fully realized, but that should not prevent the City from coming up with plans that will fuel the fan's passion for the area. And the City should make an honest attempt to get commitments from these stores and restaurants even as they proceed forward. The 'idea' to be remembered here is it is about catering to the fan's desire, as well as the tourist, to come to the City Entertainment area throughout the entire year.

3. Easy access to the stadium.

This is the one area in which it is my belief that the City scores high in. To be sure, there are improvements that can be made to all access routes, but stadium access from Highway 101, Tasman Drive and Stars and Stripes is good. What the City needs to do is a better job in, is bringing this issue back into its conversation. It would be far better, in my opinion, to continue discussing the issues concerning the various proposed routes both into and out of the Entertainment Area. After all, the goal of the City is to push this area as the 'Go To' place for resident and tourist alike.

4. A Proper Environment for fan tailgating

In my opinion, Cedar Fair's current proposal of placing the stadium on the overflow parking lot, just adjacent to the main parking lot, is an excellent idea. I recognize too that the City would prefer to have the Stadium located in the main parking lot, closer to its Convention Center, however, the reality is, that it would take all the thunder away from Paramount Park, and Cedar Fair has rightfully objected to it being placed there. However, there are two reasons why I think Cedar Fair's idea is a good one. First, it enables the large parking lot to be used for a majority of the parking and makes for an excellent place for the fan tailgating experience. In this venue, fans will be able to celebrate together in one central location, rather than at different parking venues. It also makes for easier access to the Stadium and the City will receive high marks because of this. Secondly, having the tailgaters located in one central area not only makes it easier for law enforcement to control the tailgating experience, but also, the routing of traffic both into and out of the stadium.

5. Team performance both on and off the field.

The 49'er organization is a storied one. During its history, the team has accomplished more than most NFL franchises, with five Super Bowl victories

and numerous Hall of Fame athletes. And the organization has always been involved in numerous local activities within the community. It is my belief that these traditions will continue.

6. A stadium that makes the 49'ers and fan feel like they are actual tenants

This is one area where it is my belief that the stadium could face its greatest risks if it is not designed and placed properly. At first I thought that a domed stadium would be necessary as it is with the Arizona Cardinal stadium, but I do not think it is a 'make or break' issue for its success here in Silicon Valley. However, I have thoughtfully examined the overflow parking lot and find it a little too small for a proper stadium placement. In my opinion, in order to make room for this placement, three things have to happen. Number one, the 49'er headquarters building would have to be moved to the side. Secondly, and I know that people will not be happy with this, but the Soccer Park could be moved across the street; there is sufficient land for it to be moved there. Thirdly, the Stars and Stripes road would have to be relocated.

In the December meeting, the 49'ers already suggested that they might have to move their headquarters and that the Stars and Stripes road might most likely would have to be relocated. The Soccer field is another issue. And I know that the City has envisioned the Restaurants and commercial shops to be located across the street, in front of the Golf Course. However, if the restaurants and commercial shops were located where the Soccer field currently is and the Soccer field relocated across the street, it would make for a better environment in my opinion. First, it would give the Soccer Field and the Golf course a nicer green look than if the Golf course were hidden by buildings. Secondly, it would give the stadium a nicer feel by having the restaurants, stores, and 49'er headquarters located in the same central area.

I understand that the movement of the Soccer Field is brash, but it is my belief that once the stadium plans are laid out for the overflow parking lot, that the stadium will impinge on its territory. Councilman Joe Kornder did inquire whether or not the stadium would touch the Soccer Field. If Santa Clara is to build a nice stadium, it will have to side on moving the field, not just from a land point of view, but also, from a aesthetic point of view, for the Soccer Field and its patrons.

7. A neighbor environment that makes fans and residents want to visit before and after the game

If the City of Santa Clara takes care of steps 1 through 6, I do not see why there would be any issue here. That being said, I would like to state here that Cedar Fair's participation in all of this is extraordinarily important. From my point of

view, I have seen a gradual disengagement in the trilateral relationship between the City of Santa Clara in conjunction with the 49'er organization and Cedar Fair management. That being said, I think it is important from the City's Entertainment Area point of view that Cedar Fair is brought back into the proposal as an equal partner. I do not claim to know the specifics behind the operation parties and would like to make the following statements with regards to the proposals I have already stated.

I would personally like to see Cedar Fair open up their entertainment park during a weekend game or during any other big event that will be hosted at the stadium. The City of Santa Clara should do its very best to promote the idea of a family weekend outing in Santa Clara, staying at a local hotel, visiting Cedar Fair's Paramount Park, playing golf at the Golf course, visiting the local restaurants and stores and attending the local sporting or other type of event. Paramount Park could even expand its Amphitheater to accommodate a featured band the night before the game. This synergy between the 49'er organization and Cedar Fair is vital for the success of the stadium, for Paramount Park, for the golf course, our local stores and restaurants. It is paramount in my opinion precisely because this is what the direct and indirect economic benefits are based on; otherwise, they have no meaning whatsoever, in my humble opinion.

The future of Santa Clara's Entertainment Area, all that city elders have based their opinions on, are based on this synergy. This synergy must be the pledge that all three concerned parties must make to all the people who so desperately want to see a professional sports franchise in the City of Santa Clara.

III. Stadium Financing

This proposal of mine about privately financing the remaining portion of the City's share in the 49'er plan may be seen by some to be outlandish, or not within the character of the City of Santa Clara to implement, but it is possible. This private financing of the stadium would also be in line with what transpired with the University of Phoenix stadium, home of the Arizona Cardinals. The Arizona Sports and Tourism Authority is a corporate and political body having the rights, powers and immunities of a municipal corporation.³ It was developed to manage all aspects of the new stadium (similar to the Santa Clara Stadium Authority). It is worth noting here that this stadium, which includes both a retractable roof and Roll in Field, cost only \$455 million dollars to build. The city of Glendale's contribution was only \$9.5 million dollars while the Arizona Cardinals proportion was \$143 million dollars.⁴

It is my belief that there is a way to do the financing of the stadium, in conjunction with the money currently being put forward by the City of Santa Clara. It could be done by

³ http://www.az-sta.com/about_us.htm

⁴ http://en.wikipedia.org/wiki/University_of_Phoenix_Stadium

making the '*Santa Clara Stadium Authority*' a municipal entity like the Arizona Sports and Tourism Authority; one that could raise money by offering several different levels of stock offerings. This proposal obviously eliminates the need for either a hotel tax or any other kind of tax on local businesses.

This gradation of the public offering shares would be as follows: (cf. Appendix A)

\$1000.00	A 49'er stadium Commemorative Plaque
\$2500.00	One common share
\$5000.00	One voting share with a possibility of a discount on season tickets.

The intent of the public offering is to avoid a vote of confidence on the part of the public towards the stadium proposal and to provide for public accountability and confidence in the '*Santa Clara Stadium Authority*.' The '*Santa Clara Stadium Authority*,' could also raise monies in the future by offering additional stock offerings to the public, on condition of consent from the shareholders and initiate public dividends if it so chooses. The value in a public share could increase or decrease depending upon market demand, just as though it were listed on a public market.

The purpose of share ownership is twofold. It gives a normal citizen a 'stake' in the stadium and will provide for public accountability on the part of those who run the stadium for the city of Santa Clara. It would also make the venture a public one, rather than one that relies solely on using tax monies to finance the stadium.

Appendix A

Stadium Shares

Money to be raised: \$86,000,000 (35 million (hotel tax) + 51 million (remainder))

Share per Santa Clara Resident:	\$5,000.00	One share + Season Ticket Discount
	\$2,500.00	One share
	\$1,000.00	Commemorative Plaque

Share per non Santa Clara Resident: \$7,500.00 One share

Average Share Price $(\$7,500.00 + \$5,000.00 + \$2,500.00 + \$1,000.00) / 4 = \$4,000.00$

Number of initial public shares to be issued:

$\$86,000,000 / \$4,000.00 = 21,500$ shares

All Stadium Shares to be issued by Stadium Authority

Subject: Fwd: In support of the 49ers stadium

Dear Mayor and Council Members

I spoke in favor of the 49ers stadium proposal at the December 4th council meeting and I would like to re-iterate my support and encourage you to vote to continue the city's effort to help make this happen.

I have attended three neighborhood chats with Jed York where he has clearly explained the proposal, answered tough questions, and has demonstrated that each concern I have is addressed.

These opportunities to speak directly with 49ers ownership have been a great way to hear straight from the source about their vision for this great project and they have satisfied all my concerns over traffic, congestion, parking, and cost to the city. I am also very pleased that the 49ers will assume responsibility for cost over-runs and cap the city's investment.

In reviewing the 49ers proposal and reports by the city manager and Keyser Marsten (sp?), I realize there are financial challenges. But I ask that you see this project beyond the dollars.

See it for the countless opportunities it will bring to those in Santa Clara and the South Bay & for the opportunity to keep Santa Clara great and put the city in position to grow and be a dynamic place to live & be for the next 50 years.

In attending the December council meetings, I have been impressed with the large number of people in leadership roles in Santa Clara and the South Bay who have spoken in favor of the stadium and city's investment. You have heard from Larry Stone, former Santa Clara city & school district leaders; and leaders from West Valley/Mission College, Santa Clara Chamber of Commerce, San Jose Sports Authority, several labor/union leaders, and private business owners - all offering their endorsement of a stadium in Santa Clara.

My big take-away from these people speaking in support of the stadium is:

If all of these people in local leadership roles are in favor of this project, there must be something behind that - they must have a vision for how this project is of great benefit to the people of this city and region. They see that, in the big picture, this is a good idea and we should do what we can to make it happen.

These various leaders are charged with leadership of their organizations and planning for the future - if they all agree that a stadium & Santa Clara's investment is a sound and beneficial idea, this re-affirms for me that the city should partner with the 49ers to get it done!

At the same time, there are no similar-type leaders speaking out against this proposal - a fact that speaks volumes.

And please keep in mind, back in the mid-80's, there was opposition to San Jose Arena. But now, it is very difficult to find anyone who wishes it was not built and who doesn't appreciate the world class sports and entertainment events at HP Pavilion. And it sure beats driving to San Francisco or Oakland!

I feel strongly that a 49ers stadium is a great opportunity for Santa Clara to continue to be great and position itself for the future. I hope you will share this vision and move forward on making it a reality!

Thank you.

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
andrew

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Fran Gomez

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Moses Martinez

From: jclaytonshaw@aol.com
To: MayorandCouncil
Date: 1/15/2008 2:15 PM
Subject: 49er/please say no

The following has sent a message:

Name: jan shaw

Email: jclaytonshaw@aol.com

Comments: Dear councilmembers and mayor,

Please don't support the 49er stadium. The people who live here are not rich.

I also question the philosophy of paying companies to move here. So,

1. It's too expensive.
2. Too strong a whiff of corporate welfare. I can see being cooperative but not financially supportive.
2. I don't want the city to have to fill the stadium in the off season -- it seems a huge waste of effort for the city to have to put the money and effort into filling that stadium with entertainment acts the rest of the year.
3. I don't want to lose the teenage summer jobs associated with Great America. Those are wholesome jobs for kids.

So, please, turn this down now.

Best regards,

Jan Shaw
Pomeroy Avenue

Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Edward Ortiz

Carol McCarthy - Fwd: NO 49ers DEAL

Santa Clara Mayor and Councilmembers;

The clandestine deal with the 49er and York organization is WRONG, WRONG, WRONG for Santa Clara. If billionaires and their organization want a new stadium, billionaires should PAY in full for their new stadium. This deal is of NO value and a financial drain to the average Santa Claran. NO Niners deal.

E. Broderick
Very Concerned Santa Clara Resident

Start the year off right. [Easy ways to stay in shape](#) in the new year.

Dear Mayor and Council,

As a former San Jose vice mayor, I applaud how deliberate and thoughtful you have been as you analyze the San Francisco 49ers proposal for a stadium in Santa Clara. Further, I'm impressed that your city staff has identified ways to make a public investment in the stadium without resorting to the general fund or new taxes. This is an important project for the city of Santa Clara and the region – one that will yield major economic benefits to many of our cities. The location is near ideal with terrific access to the proposed site and little impact on neighborhoods.

As a former school superintendent, I am also grateful to know that Santa Clara Unified School District will see a major financial benefit from a new stadium because of your redevelopment agency's "pass through" payments. As we read about the state budget difficulties and the discussion of draconian cuts to the education budget, I'm encouraged that a major local redevelopment project could benefit local schools in a substantial way.

I urge you to continue the process tonight as you vote on the recommendation city staff has made to enter negotiations with the 49ers. We seized the opportunity twenty years ago to build the Arena in San Jose. We know the facility's benefits, both tangible and intangible, and have not regretted the decision one bit. You can repeat a similar success in Santa Clara.

Sincerely,

Frank Fiscalini

Email: scott@hpssims.com
Comments: Dear Sirs and Madams:

I am writing to let you know I do not support the 49rs stadium proposal and would ask that the council vote NO on it.

Given my current knowledge of the situation I am completely against any city land or money of any kind being used to help fund a sports stadium. In fact, in my mind they should be paying us to compensate for the problem it will case in terms of traffic and other inconveniences they will cause. And it's not that I don't like football, or the 49rs, since I'm an avid fan. But that doesn't mean I'm willing to pay them extra for the privilege of being their fan.

I agree completely with the general sentiments which I am certain that you are already familiar with - namely that with the millions of dollars they already have, the land or money from us would be only a minuscule fraction of a percent of their payroll over the life of the stadium.

Or that its ridiculous to give a hand-out to multi-millionaires that don't live here and don't care one whit about Santa Clara other than it's a place where they can make money. People that could potentially move the team in a heartbeat if it's to their advantage or that might have no qualms about extorting the city if it means more profit. And while it may be true that the current ownership and management of the 49rs "aren't like that", or that the contract will be "air tight", all you have to do is look at the last 15 or 20 years of sports franchise history just right here in the Bay Area to see that those things, even if true now, can change dramatically almost overnight.

For that matter, you can look at the 49rs themselves. Their loyalty to their original home appears to be about zero, even though it seems to me that the city of San Francisco is doing all it can, within reason, to keep them there. But they found someone who will make a sweeter deal, so off they went. Aside from showing that it truly is all about money for them, is this really what we want for Santa Clara 10 or 15 years down the road?

I'm not completely against the stadium, at least under certain circumstances. But I am against any handout to people that don't need it which also has the very real risk that not only will the city never see an equitable return, but that it could end up losing a lot more in the end that was ever forecast. If a sports franchise wants the stadium, they should use their own funds to build it in its entirety, and then the city could work out an equitable spit for the extra infrastructure expenditures and inconvenience it will cause the residents.

For the residents of this city, I believe that there are much better uses, or investments, for this amount of land or money.

Thank you for your time,

- Scott S Hamilton

SANTA CLARANS FOR FISCAL RESPONSIBILITY

P.O. Box 26, Santa Clara, CA 95052
scffr07@gmail.com 408-247-8528

January 15, 2008

Dear Mayor and City Council Members:

The Santa Clarans for Fiscal Responsibility Steering Committee compliments city staff for its thorough and concise reports regarding the proposed 49er Stadium.

After a lively, robust discussion we support the staff recommendation and the six points outlined in the staff report entitled "Findings from the Feasibility Study for a Proposed San Francisco 49ers Stadium" dated January 11, 2008.

If the issue is placed on the ballot we feel it is important that all of the deal points be included in the ballot language. The committee will reserve any further response until all the open issues are resolved and the negotiations are completed and made public, at which time we will evaluate the proposal and make a public statement.

We know this is a difficult negotiation and we respect the staff and Council for the job they are doing. Above all we look to you to keep the City of Santa Clara fiscally strong.

Sincerely,

Bill Gissler

Committee Background

SCFFR evolved from the Committee Against Binding Arbitration ("No on Measure B") in 2008. Our City Council voted 5-2 to put Measure B on the ballot without charter process. The measure was defeated through our community education outreach and strong editorial support from local newspapers. We don't want to be caught off guard again. We're staying in touch.

Subject: San Francisco 49ers stadium proposal

Dear esteemed Mayor and City Council Members of Santa Clara.I have written to you on this subject last year and I am writing again to ask you to please vote no on the San Francisco 49ers stadium proposal. All can see that this proposal is bad for Santa Clarans and a poor use of our city monies:

When you add up all the costs involved for this project to be paid by Santa Clara (value of the land, stadium development, parking lot development, relocating or reconfiguring a power substation). When you add up the value of the jobs that would be created and find that these jobs pay below the poverty line in this county.

When you consider that looting Silicon Valley Power's piggy bank to subsidize a stadium will weaken SVP's financials, benefit very few people (many of whom are out-of-towners), and expose all Santa Clarans to the wild fluctuations of the energy market that PG&E customers had to endure.

When you review your own report on economic activity, which indicates that activity will be greater with alternative projects

Rather than enriching a for-profit enterprise, please do the job you were elected to perform and focus on the needs of the Santa Clarans who live and work and make their homes in this wonderful city. There are much more important things to spend our money, our taxes, our city funds on, including roads, police and fire departments, services to children through seniors, sewers, libraries, and water supply.

At the very least, put this on the ballot so that all Santa Clarans can vote on it and eliminate the voices of outside special interest groups who invade our city council meetings with their self-serving views when they do not ultimately pay for the project.Thank you and best regards, Gail Tiberi136 Douglane AvenueSanta Clara, CA 95117-1019

Comments: Imgainst a 49er stadium. The jobs produced as a result of a buildout are low income at best 33K/year. The traffic congestion from shoreline amphitheater is already a mess when you drive in the Peninsula. I have never spoken out against anything the council has voted on before, but I am driven to speak out against this proposal. As my elected officials I urge you all to vote NO on this issue!!! I saw Mayor Mahan speak on TV this morning and you looked very uncomfortable and did not make eye contact with the reporter when asked about the legitimacy of this deal. That tells me you were deceptive when you said the majority of Santa Clarans are behind you, yet everyone I have spoken to is against it and doesn't want our taxes to increase. The 49 have millions and millions of \$\$\$\$ I don't and won't ever attend a 49 game. I can see it far better on TV and it costs less. I again URGE YOU TO VOTE NO on the 49er deal. IF we have these funds available let's invest in the infrastructure of our city instead and that way every Santa Claran will benefit and not just a few and certainly not the rich 49ers.

Sincerely,
L Almada

CC: Yvonne Galletta

The City Manager's Office received a call from Marilyn Holmes (tel. # 978-1217). She wanted to express her concerns about the Stadium deal with the 49ers. She had the following message for Mayor and Council Members:

1. An emphatic "NO" on the Stadium deal
2. The stadium will bring traffic congestion and parking problems to the area.
3. Residents living near Hwy 101 and 237 are going to be upset because of the noise factor and traffic congestion
4. We are in a recession; we are already taxed to death
5. Gavin Newsom will fight for the 49ers to remain in San Francisco because of the revenue
6. Great America has to go. They are not contributing to the economy. All their rides are old and breaking down.

I thanked Ms. Holmes for her comments and promised to pass them along to the Mayor and Council Members.

Mayor Mahan and City Council members,

I want to compliment you on your diligence, hard work, and patience these past several months while studying the 49er Stadium issue. The professionalism and integrity you displayed while being confronted by rude, insolent, and discourteous members of the public clearly demonstrates that you have "stayed the course" and were consistent with the guiding principles you established at the start of this important issue; and everyone who wished to voice their opinion about the stadium did have the opportunity to do so.

I want to encourage you to vote in favor of the City Manager's and City Staff's recommendation to authorize the City Manager to proceed in further negotiations with the 49ers and Cedar Fair over obligations and responsibilities, financial commitments, lease agreements, etc. for a specific period of time so a complete and factual report can be reviewed and voted upon by the public in a ballot measure.

Thank you for your consideration.

Subject: San Francisco 49ers stadium proposal

Hello,

Due to some hyperlinks in the document, I have attached my comments in PDF format.

If another format is required please let me know.

Thanks,
Rich Hilgersom

Honorable members of the Santa Clara City Council,

In the spirit of full disclosure I should first note that I have a mere sliver of a financial interest in the proposed 49ers stadium in Santa Clara. I worked in the IT department of the 49ers for the 2002 through 2005 seasons so I am in the NFL pension program.

Since I left the team, I have had very little contact with the people there, so I don't have any "inside information" on the stadium proposal. However, as a citizen of Santa Clara, I would like to bring up a topic that has been ignored up to this point.

The Convention Sports and Leisure (CS&L) findings, and therefore by extension the Keyser Marston findings, have ignored the fact that the proposed stadium is directly in the flight path of the San Jose Airport and will be within the 65DB CNEL contour. (see page 4).

The site is surrounded by noise monitoring stations that capture data continuously. (see page 3). This jet aircraft noise will make for the worst fan experience of any NFL stadium and will eliminate most non-NFL events.

A review of all 31 NFL stadiums shows that none of the stadiums are affected by an airport noise contour. (see page 2 for links to each stadium and its surrounding airport(s) CNEL or DNL)

Let me be clear that I believe NFL stadiums can be good for a local economy if they are negotiated openly and aggressively. Unfortunately, since the Economic Impact report estimate does not have any supporting examples of income from a comparable stadium it must be corrected before continuing forward.

Regards,

Rich Hilgersom

Subject: Citizen Complaint

I received a call from Mr. Lamar Atkinson, a 46-year resident of Santa Clara. He wanted to convey the following to the Mayor and Council and City Manager.

1. He feels that the Mayor and Council are out of touch with Santa Clara residents
2. "No" on the stadium; City's funds are not unlimited. We have enough traffic congestion.
3. "No" on Measure A and B
4. Santa Clara had a strong Catholic heritage. Now that has changed.
5. Homes in Santa Clara are painted in dark colors. Residents don't think of global warming when they do that. Lighter colors reflect sunlight better.
6. Mr. Atkinson's roof is painted in "Arctic White" color. This color is no longer available and was dropped 7 years ago.
7. Streets are of black asphalt. Should use the color of cement which would reflect light much better and easy on the eyes.
8. Our heritage has gone down the tube.

I told Mr. Atkinson that I would pass his message on to the Mayor and Council.

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Bryan Groves

I live & work in Santa Clara, I vote, and I am completely against the idea for numerous reasons.

- 1) I have no interest in ball games.
- 2) Pedestrians will clog our new bike trail getting from their cars to the stadium.
- 3) Motorists will clog our city streets.
- 4) Most attendees will drive here, eat their own food or concessions, and drive home. Big benefit!
- 5) The ball teams make enough money to make bazillionaires out of the ball players and head honchos. If they want a stadium, not only should they pay the full amount, including utilities, but also they should pay the affected city reparations for all the negative items listed above. Developers have to (and I agree with that); why shouldn't ball teams?

Sincerely,
Diane Harrison, Certified Master Cruise Counselor

Subject: I support the feasibility study

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new world-class stadium for the 49ers. A new stadium would be a great fit for the city's entertainment district and would deliver a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Raymundo Rodriguez Torres
