N20-48	1/29/2020	Alice	<p>We bought a unit in a new construction over a year ago Madison Place @1368 El Camino Real Santa Clara. Every time it rains the building's walls start "crying" and leaks permeate throughout the building walls.</p> <p>Upon further investigation from an engineering team it was conveyed to us that our property sits on top of some swamp and the ground water leaks through the building foundation during rain because the structure was never appropriately waterproofed from a construction and engineering perspective.</p> <p>As an HOA member we are wondering :</p> <ol style="list-style-type: none"> Did this project pass all the appropriate building codes and inspections? Are these records available and open to the public? Does the city of Santa Clara not require builders to appropriately waterproof a structure that sits on top of a well, swamp, groundwater etc.? Is this violation something the city can enforce onto the builders to fix as it severely affects our structure? How do I find out what category of water I'm sitting on top of as the builders did not disclose this information and are still withholding it. 	4

N20-154	3/26/2020	Todd Maddison <i>(Transparent California)</i>	2019 Employee Compensation Report Employee includes anyone who worked for the District (including part time employees or elected officials) that received compensation in the form of wages or employer-paid benefits. Most California agencies find it easiest to respond to this request by producing a copy of the State Controller's Office (SCO) report that includes employee first and last names. Please provide a copy of the working report, or any other combination of records, that contains the compensation data found on the SCO report alongside employee names. Alternatively, please provide copies of any other reports or records that contain information responsive to the purpose of this request for all individuals paid or provided benefits by the district : employee name in conjunction with their compensation data. In an effort to standardize how this information is reported we are seeking the same categories of employee compensation that are found in the State Controller's Report. At a minimum, please include the following categories in your response: Employee Name Position/Job Title ("Superintendent", "Teacher", etc.) Total Regular Pay Overtime Pay Other Pay (any additional forms of pay that are not reported in Regular Pay) Total Retirement (All forms of employer-paid retirement plan contributions, including defined benefit plan contributions or deferred compensation) Health Cost (all forms of employer-paid health and welfare benefits)	12

<p>N20-327</p>	<p>6/29/2020</p>	<p>Ashum</p>	<p>I have made continuous attempts to various agencies in your country, and the State of California. I have received 0 (zero) information. I have continued to ask why your country has made county wide decisions regarding COVID-19 orders given. I also like to know the "law" which is allowing discrimination to occur. Discrimination is against the law, which seems perfectly fine. I have requested information from your agency many times. I was given information by Steve Praminger, which he assured me it would "take a little time" But its been more than a month. Your agency had 10 days to provide records. And if you needed extensions you had time after that. But your agency hasn't contacted me at all after Steve and I spoke.</p> <p>I wan't any and all information regarding COVID-19, you might have. I want all information about anything Related to COVID-19. I like information on your agency and other agencies within this Lawless County, to allow this militarized force of power. This power, which is not enforcing civil rights, but is enforcing "Orders" which discriminates the public.</p> <p>I like any and all facts on how your public health agencies have made their decisions. If they were told to do something and not asked I like to know this. I like any and all proof, evidence, experiments, publications, publication dates, and any other such documents which were read and provided by your staff about this virus which is allowing this order to proceed. I'm demanding hard facts. I like any and all documents, if that wasn't clear enough. All types of data that exists. I like "Documents, photos, emails, texts, videos, data and other records."</p> <p>I need all this information from 10/1/2019 till now.</p>	<p>96</p>
			<p>I'm also adding to this, I like to know all the individuals, entities, etc. who have requested such documents. I'm also requesting, how many of these entities, and/or individuals had their requests filled, the timeline in which it took, and the requests that were made. I like to know all the individuals in your county who are responsible for the release of records. I also like to know how many were denied records and the reason why. I also like to know how common it is for your agency to remain in neglect. And the individuals in charge of these neglects.</p> <p>From information about your specific agency and its employees (mentioned in the previous paragraph) , I like have dates range from 12/1/2015 of these data till now.</p>	<p>0</p>

N20-375	7/17/2020	Katey Rusch <i>(Investigative Reporting Program - UC Berkeley)</i>	<u>Request for Peace Officer Settlement Agreements</u> Copies or access to all agreements regarding discipline between the City of Santa Clara and/or Santa Clara Police Department and former or current employees of the Santa Clara Police Department. These agreements are sometimes referred to as settlement agreements, last chance agreements, separation agreements, resignation agreements, etc. These agreements are executed at every stage of the disciplinary process (prior to the completion of an internal affairs investigation, during the Skelly process, when the discipline/termination is appealed and in some cases after a lawsuit is filed). We request copies of such agreements dated between January 1, 2010 and the date of this letter . We are intentionally requesting these records from the city and not the police department because these records are often housed outside law enforcement agencies. We seek such records located in, but not limited to, the following government agencies: the human resources department, risk management, city clerk, city attorney, and police department.	220

N20-541	9/20/2020	Eric Dacquay	Obtaining copies of permitted plans from remodel Back in 2018, I purchased a house which had just gone through a complete remodel. Since then, I've wanted to obtain a discount on my earthquake insurance by having an engineer complete the necessary documents to indicate that the house had been retrofitted and satisfied the requirements to obtain the discount. I provided the engineer with a copy of the plans and engineering drawings which I had and based on those, everything looked good. Unfortunately, during a site inspection, it was discovered that the work which had been done does not correspond exactly to the plans I provided him. Is there any way to get a copy of the plans which were approved by the city to determine whether or not there were updates to the plans made that reflect the differences observed during the site inspection?	1

I have been working with Viet Nguyen who has been very helpful in proving as-builts for the streets and utilities in the public right of way. However, we're hoping the Building Department can assist with providing as-builts for the private site improvements. Attached is a markup showing the properties in question. One thing specifically we're interested in is there appears to be a private storm drain pipe that drains to the north through another parcel before connecting to a pipe in El Camino Real. If you have any information regarding this pipe or any other private improvements it would be greatly appreciated. If additional information is needed for this request please let me know. The APN's for the properties we're looking into are 290-03-074, 290-03-089, and 290-03-090.	2
