

Sub-Contractor Verification Form

Business and Professions Code (BPC) section 7057 defines a General Building contractor as someone whose principal contracting business is in connection with “any structure built, being built, or to be built for the support, shelter, and enclosure of persons, animals, chattels or movable property of any kind, requiring in its construction the use of at least two unrelated building trades or crafts, or to do or superintend the whole or any part thereof.” The BPC provides additional clarification as summarized below.

A “B” General Building Contractor Can...

- Enter a prime or sub-contract for a framing or carpentry project and self-perform the work.
- Enter a prime or sub-contract for two or more separate and unrelated trades and self- perform the work (framing and carpentry cannot count as one of the trades).
- Enter a prime or sub-contract for a single trade. However, unless the “B” holds the appropriate specialty classification, the performance of the work (other than carpentry or framing that can be self-performed) must be subcontracted to a contractor that holds the appropriate classification.

I, _____, hereby affirm under penalty of perjury that I am licensed under provisions of Business and Professions Code Division 3, Section 7000 of Chapter 9, and my license is in full force and effect. I hereby affirm under penalty of perjury I hold a (B) General Building Contractor's license and as such I am exclusively sub-contracting with licensed contractor to construct the project for which I do not hold a specialty license.
